-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Baker et al. (5,971,515) in view of Carter (5,964,499).

Baker et al. '515 discloses the invention as claimed but does not allow the door to open approximately 147 degrees. Carter '499 teaches a concealed hinge having a gasket (60), a rib (45) and allowing the door to open to a full 270 degrees so that the door is entirely out of the way of a loading or unloading operation. It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify the hinge structure of '515 with the hinge structure of '499 to allow the door to open to a full 270 degrees to spare more space for unloading of the content of the safe.

As to the gap between the edges, it would have been an obvious matter of design choice to form the gap approximately 0.25 inches, since such a modification would have involved a mere change in the size of a component to accommodate the thickness of the gasket. A change in size is generally recognized as being within the level of ordinary skill in the art. *In re Rose*, 105 USPQ 237 (CCPA 1955).

Allowable Subject Matter

3. Claims 10-20 are allowed.

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
5. Applicant's election without traverse of claims 10-24 in the reply filed on Aug. 29, 2008 is acknowledged.
6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Chuck Mah whose telephone number is (571)272-7059. The examiner can normally be reached on 5/4-9.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Victor Batson can be reached on (571)272-6987. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
